

*Manufacturing excellence through
change and innovation.*

Join our team, secure your future, and participate in a world class organization committed to being the best at aerospace component manufacturing. Our investment in leading-edge high speed machining technology in a state-of-the-art facility affords our employees the opportunity for continuous growth and advancement opportunities.

POSITION:

CNC Set Up Operator

DEPARTMENT:

Manufacturing

REPORTING TO:

Plant Manager

SUMMARY:

This is an opportunity for an energetic and motivated CNC Set Up Operator to work with a world class organization committed to being the best at aerospace component manufacturing. This CNC Set Up Operator will be responsible for setting up and operating a variety of 3, 4 or 5 axis CNC machining centers.

ACCOUNTABILITIES:

- Set up and operate a variety of CNC equipment to produce quality air craft products
- First-off audits, in-process inspection checks
- Loading and unloading of parts from machines/fixtures
- Participation in improvement activities related to the machine and/or machining process
- Completion of 5S requirements on a daily basis
- Performing routine inspections of product using a variety of inspection tooling/gauges (i.e. micrometer, vernier, calipers, height gauge, shadow graph, etc)
- Manage tools, fixtures, part programs, and gauges at the machine

QUALIFICATIONS:

- Post-secondary education related to machining;
- 3, 4, or 5 axis horizontal set up experience on CNC machining equipment;
- Good reading and math skills required; capable of completing assigned tasks from written/verbal instruction
- Part prove-out experience/communicating with programming
- Good understanding and experience with work off-sets
- Blueprint reading capabilities; including, knowledge of GD & T principles, understanding of CMM reports, and experience using a wide variety of precision measuring instruments (i.e. verniers, micrometers, calipers, indicators, etc)
- Good verbal/written communication skills, positive attitude, ability to demonstrate effort to troubleshoot and make improvements to job-related processes
- Experience working in a Lean environment
- Ability to work in a dynamic, fast paced, changing environment
- Good attention to detail and results oriented
- Strong sense of teamwork within group and across organization.

HOURS:

- 12 hour, continental shift, rotational shift
